63-66 A-BODY HEADER-BACK EXHAUST SYSTEM

PART NO. **A25HNM6366**

SOLD TO:

SHIP TO:

ORDER NO:

DATE: 2/14/2023

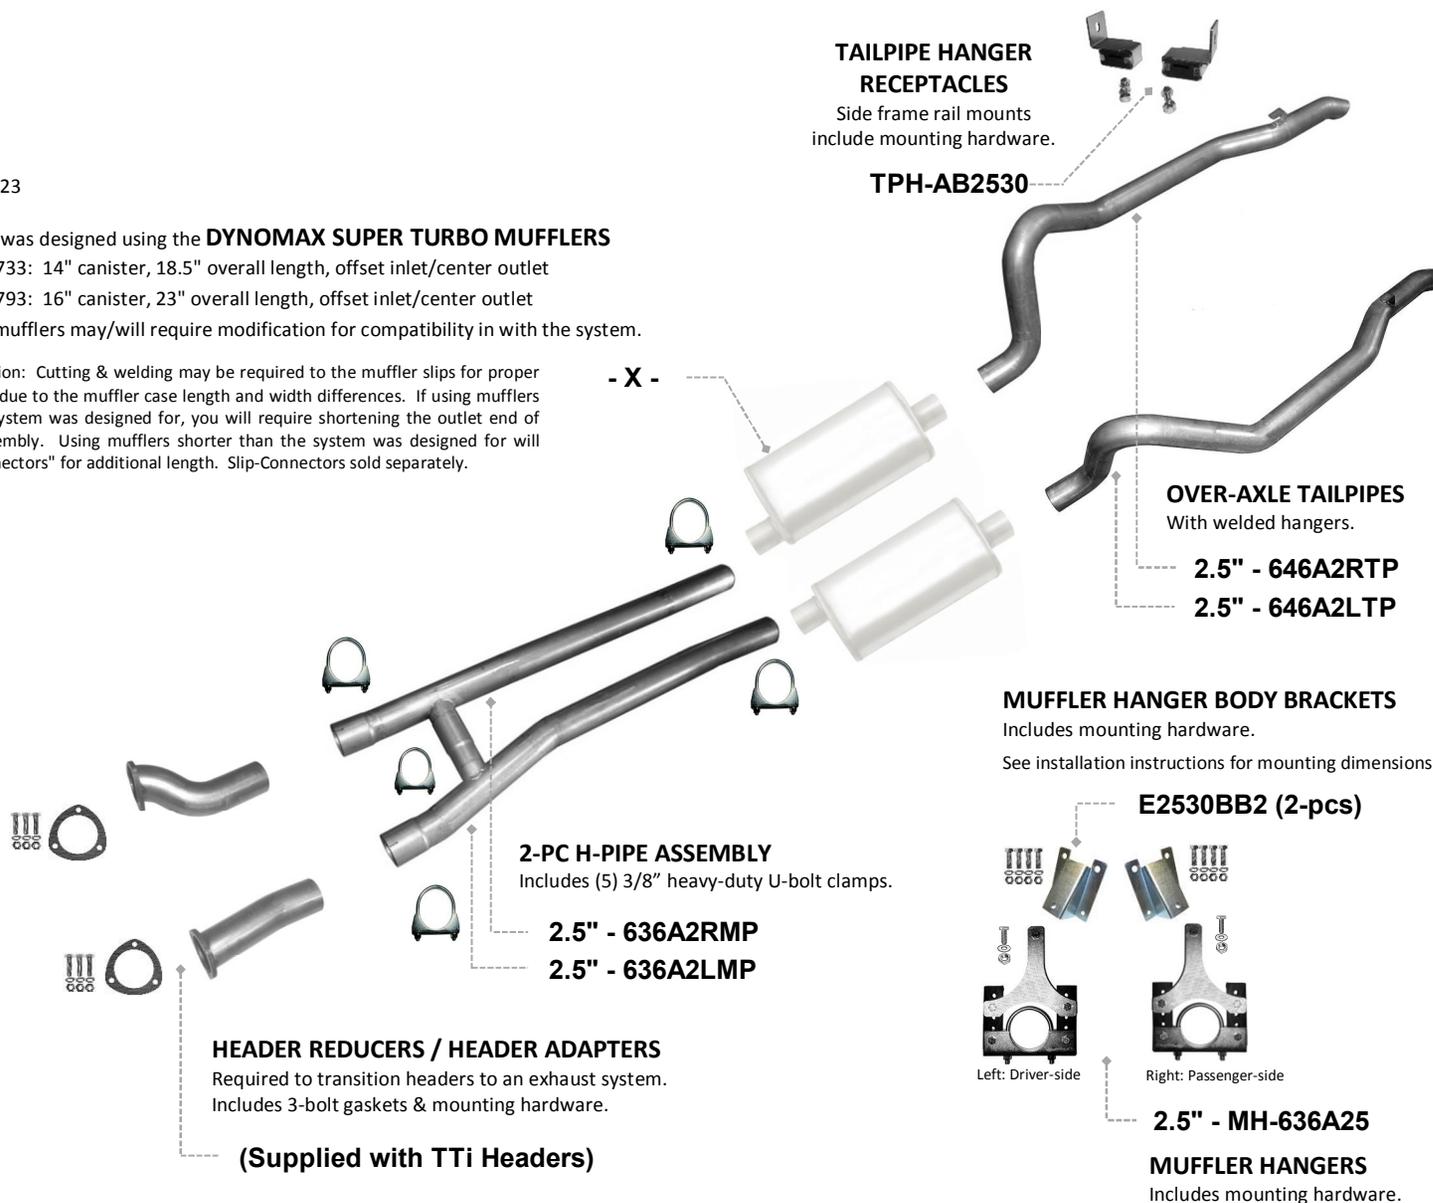

Exhaust system was designed using the **DYNAMAX SUPER TURBO MUFFLERS**

2.5" Muffler 17733: 14" canister, 18.5" overall length, offset inlet/center outlet

3.0" Muffler 17793: 16" canister, 23" overall length, offset inlet/center outlet

(!) Using other mufflers may/will require modification for compatibility in with the system.

Muffler modification: Cutting & welding may be required to the muffler slips for proper fit and alignment due to the muffler case length and width differences. If using mufflers longer than the system was designed for, you will require shortening the outlet end of the mid-pipe assembly. Using mufflers shorter than the system was designed for will require "Slip-Connectors" for additional length. Slip-Connectors sold separately.

COMPONENTS & ACCESSORIES

(Sold separately)

9" SLIP-CONNECTORS

Tube length extenders when running shorter mufflers than system was designed for. Swaged inlet, notched for clamping. Includes U-bolt clamps.

POLISHED EXHAUST TIPS
